PAY ONLY FOR WHAT YOU USE

Generally, your Enterprise Agreement contains licenses and services you do not use. With our light audit and thorough review processes, pay only for what you are using and will be using.

ERADICATE MISTAKES

Mistakes are frequent in Enterprise Agreements. Whether quantities, license or service type, you end up paying more or not the right products, resulting in audit failures and big fines.

RIGHT LICENSING

Microsoft licensing is confusing and complex, resulting in unnecessary or wrong licenses. Software advisors and account managers' goal is to maximize their revenue. By enrolling licensing specialists, you minimize costs and pay for what you need, not for what Microsoft wants to sell.

LEGAL, RELIABLE, COST EFFECTIVE

After 10 years of selling Enterprise Agreements at Microsoft, we know exactly what to do to maximize your satisfaction while minimizing your costs when it comes to Microsoft licensing.

We do not sell licenses and are vendor-independent!
